

Report of the Celebration of Earth Festival

Title: Celebration of Earth Festival Under 'Save my Earth' Campaign

Date: 12th September 2010 to 14th September 2010

Organized by: 'EARTH'
Pattamundai, Kendrapara
Orissa.
Email: earth_orissa@yahoo.com

Venue: Pattamundai & Aul Block of Kendrapara District.

Participants: Volunteers of 'EARTH', Villagers & School Student's.

Not to reiterate: EARTH has been going guns to have the green earth vision. By the way, It is all go in the precinct of EARTH.

EARTH is doing its Plantation in full swing at different places like road sides, open places and school campuses. To come down the brasstacks, our own staff, volunteers' Students of schools and colleges, locals and the literati have come forward to join hands with us. The saplings and trees are protected by gabions (brick & iron). They are being watered and manured by our volunteer's and even workers we have with specialists to give us advice and suggestions. More still, we are

hard at work in developing green fingers among the mass.

In Pattamundai Block, the plantations programme was organized in the campuses of the Aurobindo Purnanga Siskhashrama & the various places of Govindpur village. There were near about 1350 or more saplings planted for making successful this Programme. The saplings were surrounded by barricades for their protection. The saplings were being watered and manured by our volunteers.

In Aul Block, The Earth festival was organized at the panchanpara village of Sanamanga Gramya Panchayata. There were near about more than 1000 saplings were planted for making this

campaign meaningful & successful. The saplings and trees are protected by gabion and watered by the volunteers of the EARTH with support of the villagers.

The member's and volunteers of the 'EARTH' were delighted by organizing the celebration of earth festival under 'Save my Earth' campaign. The campaign not only gives us some opportunity for the protection to the environment but also give some knowledge to peoples in general to protect themselves from the natural disasters.

To begin the end, we need support, suggestion; help and C from you to broad base our activities, so that we shall never fail in benchmarking in the avenue we are up.
